Sir:

I am a viewer of *Access Tucson*, Tucson, AZ.

I, we-the-people, own the public airways of America – NOT THE CORPORATE ENTITIES OF AMERICA! We are not stupid constituents but woefully uninformed about what is going on!

Telephone companies want to do away with local video franchise agreements between local municipalities and video providers; they claim these franchises are an obstacle preventing them from entering the “Video Service” delivery business.

We-the-people must ensure that local municipalities have the authority to require local video franchising. Sir, you are appointed by the President, his representative, and as he swore to uphold the Constitution – you can, too.

You may know that THE CORPORATION has spun the meaning of OUR CONSTITUTION to include itself, a non-living, financial legal entity, with the same UNALIENABLE RIGHTS OF WE LIVING AND BREATHING CITIZENRY – and none of the legal responsibility of consequence!

Are We-the-people to be summarily dismissed as inconsequential? Shame on those who willingly travel a twisted pathway of interpretation without questioning the consequences to US, so-called “mythical little people”!

The noncommercial PEG TV channels deliver more original locally-made shows than all the commercial television stations combined. They provide noncommercial programming for seniors, for the disabled, for youth, multi-lingual programming for ethnic communities, and others that are often neglected by the commercial media.

The opportunity for citizens to stay informed about local government issues could be co-opted by unchecked power. Telephone companies (wittingly or unwittingly) will weaken OUR DEMOCRACY by eliminating PEG – or worse!

You can be an American, first, rather than a political party member taking orders, obediently.

I see a compromised mass media usurping the true meaning of American Democracy by protecting their own financial interests over that of the original intent of the Founding Fathers by ignoring US.

Help stop this Tyranny-of-power over Truth and intervene on behalf of WE American People. The multi-national corporation cannot be trusted to protect US, but rather ITS INVESTORS - without considering the moral outcome to US and the Constitution – just for profits!

Sincerely,

Bob M. Zavoda
